Waiting Seat

REFINED ITALIAN DESIGN

The Woody armchair is a typical example of refined Italian design. Functional, yet imbued with a strong personality, Woody is the ideal solution for furnishing any elegant or architecturally sophisticated surrounding.

SPECIFICATIONS

The shell is made of shaped beech plywood, varnished with aniline or padded and upholstered. The frame is made of chrome-plated or powder coated tubular steel. In the version on beam the leg is made of 15 ga. rectangular steel tube-approx. 2.4"x1.5"-welded to a 15 ga. oval steel tube foot-approx. 2.4"x1.2"-with two nylon feet. The bearing beam is made of 12 ga. rectangular steel tube-approx. 3"x1.5". The padding is filled with contoured polyurethane foam. The armrests can be in polyurethane, in aniline dyed beech, or in leather covered beech.
