

# ZERO 7

Operative multi-functionality

Design: Giovanni Baccolini

**Navetta**<sup>TM</sup>

# ZERO 7

Available with swing out base, task base, or four-leg base

## OPERATIVE MULTI-FUNCTIONALITY

Zero7 is a new chair that combines all the important aspects of contemporary seating. It is offered in a multitude of versions: with or without headrest, padded, with mesh or plastic backrests, with fixed or multi-adjustable armrests, and with a swivel base or a fixed leg base.

## SPECIFICATIONS

The backrest is made of black, gray, or white polypropylene with lumbar support in ABS, covered with soft black polyurethane. The optional upholstered back panel and headrest and its lumbar support are polypropylene. The back mesh is made with a black nylon frame, coated with black, gray, or white nylon mesh. The lumbar support is made of black polyethylene. The seat is polypropylene reinforced with steel square tubular bars; the seat cover is made of black, gray, or white shockproof polypropylene. The fixed armrests are made of black, gray, or white polypropylene. The adjustable armrests are chrome-plated steel with black polypropylene. The fixed four-leg base is in either black-painted or chrome-plated tubular steel.
