LECTURE HALL

LECTURE HALL

No matter how big or small a room, Navetta provides customizable spaces that create learning environments that are comfortable, efficient, and effective. Whether you are developing opportunities for collaboration and cooperation, or seeking a space saving seating solution to retro fit existing narrow lecture halls, Navetta has a solution for you.

Elegant and durable—modern design at the intersection of form and function.

The Symmetra fixed table system provides a unique, integrated environment for learning. The clean and modern design even extends to the under-table raceway system. Symmetra is a confident blend of form and function that will complement any advanced learning environment.

Symmetra stands on ultra-rigid steel pedestals, and each installation is individually designed to fit perfectly with the size and appearance of your facility.

Ultra-rugged toughened nylon foot covers are virtually unbreakable— and designed for the most demanding environments.

Precision laser-cut structural steel brackets adjust for exact fit in any installation, then lock in place.

Modesty panel interlocks into tabletop surface for extra rigidity.

Under-table or top-mounted access to integrated modular Power/Data system.

Provides convenient access to power and data connections during installation.

All power and data connections and wiring are concealed beneath a secure integrated raceway system.

Note: Pricing is per seating position

SYMMETRA PLUS

The ultimate lecture room solution integrated seating

INTEGRATED SEATING SYSTEM

Symmetra Plus adds the convenience of swing out seating to your facility. Choose from several comfortable and sturdy seat types, with or without upholstery.

DESIGNED FOR YOU

The Symmetra and Symmetra Plus fixed table systems can be as simple or as comprehensive as you like. Start with a basic table design, and choose materials, trim options, and colors. You can add integrated power and data systems, swing-out seats, special end panels and modesty panels, and more.

COMPREHENSIVE OPTIONS

Symmetra Plus can be supplied with a wide variety of premium seat styles and designs, with or without upholstery.

ARC-DESIGN PEDESTAL

A single length of rugged oval steel tubing is precision-formed to eliminate sharp corners and the possibility of welding imperfections.

CURVED SEAT SUPPORT ARM

Unique design provides increased legroom and elegant appearance.

SPRING-RETURN SWINGARM

Rugged swingarm design with internal torsion spring provides full access, then returns to flush position when not in use.

SILENT-ROTATION SEAT BASE

Seat support cylinders provide full rotation and automatically align with table when not occupied. Adjustable height also available.

Standalone Solutions

The Symmetra Ped is a standalone solution for totally customizable fixed seating. Symmetra Ped stands on an ultra-rigid steel pedestals and each installation is individually designed to fit perfectly with the size and appearance of your facility

Designed to compliment our Symmetra family, the Symmetra Ped is loaded with options and completely customizable to fit your space.

- Three different toppers: Lovano, Avalon, & Matic
- Fixed or flipdown tablet for maximized space
- 360° spin for collaboration

MONOLITO

Commanding presence

A SINGLE UNIFIED POWERFUL FORCE

Handsome and imposing in its simplicity, Monolito™ provides a dignified environment for lecture halls, meeting rooms, auditoriums, or wherever learning happens. Start with Monolito’s superior engineering and classic lines, select the option that best suits your space and needs, and then customize it with our extraordinary color and finish options.

AN ORGANIZED WHOLE

Connectivity is clean and easy with Monolito’s under-table or top-mounted access to an integrated modular power and data system. For secure wire management, all connections and wiring are concealed beneath a secure integrated raceway system.

ENDLESS VARIATIONS

Both the modesty panel and the table leg’s decorative center panel are available in different finishes, including Ecoresin panels in stunning translucent colors.

ELEGANT FUNCTIONALITY

Interlocking components make for perfect fit, support, and rigidity. The sleek anodized aluminum finish handles wear and tear. An open design provides easy access and is ADA friendly.

OMNIA SPACESAVER

Innovative design allows for more seats in a given space

SPACE-SAVINGS SOLUTIONS

The Omnia Spacesaver system is a powerful tool for designing new facilities or retrofitting existing ones. The innovative Spacesaver design can fit the maximum number of seats in virtually any space.

FLIP-UP DESKTOP

The desktop is designed with a unique “anti-panic” feature. When the user stands, the seat folds against the seat back, and the desktop flips upward and out of the way, automatically clearing the aisle for exit.

STRAIGHT OR CURVED ROWS

Whether you choose the flip-top or fixed work surface for your installation, the design can accommodate either straight or curved rows.

FLAT, SLOPED, OR TIERED FLOORS

Each Omnia system is designed and built specifically for your installation. The system can accommodate flat, sloped, or tiered floors. There’s also a high-back Omnia Evolution system for steeply tiered facilities.

Streamlined appearance and simple install

TRACK	TABLE	SOFT	CUSTOM COLOR	POWER
Mobile track for fixed leg version	Fixed table faced with plastic laminate	Padded seat and backrest	Beech plywood with special stain color	Set up for electrical sockets

For straight row installations, the Omnia Beam provides all the features and functionality of the Omnia system, supported by a central beam and rugged pedestals. For many facilities, this design provides a streamlined appearance and can simplify installation because the number of fixing points to the floor is notably reduced.

Whatever your vision, each Omnia system can be tailored specifically to your needs.
We can help you achieve your goals.

ZERO 7

Available with swing out base, task base, or four-leg base

OPERATIVE MULTI-FUNCTIONALITY

Zero7 is a new chair that combines all the important aspects of contemporary seating. It is offered in a multitude of versions: with or without headrest, padded, with mesh or plastic backrests, with fixed or multi-adjustable armrests, and with a swivel base or a fixed leg base.

SPECIFICATIONS

The backrest is made of black, gray, or white polypropylene with lumbar support in ABS, covered with soft black polyurethane. The optional upholstered back panel and headrest and its lumbar support are polypropylene. The back mesh is made with a black nylon frame, coated with black, gray, or white nylon mesh. The lumbar support is made of black polyethylene. The seat is polypropylene reinforced with steel square tubular bars; the seat cover is made of black, gray, or white shockproof polypropylene. The fixed armrests are made of black, gray, or white polypropylene. The adjustable armrests are chrome-plated steel with black polypropylene. The fixed four-leg base is in either black-painted or chrome-plated tubular steel.

NORTHWOOD

Available with swing out base, task base, or four-leg base

FORMED LAMINATED WOOD

The Nortwood seat is elegant and comfortable—a straightforward design of thin layers of beech wood, precisely formed and laminated into a strong, single unit.

Available with swing out base, five-leg task base, or four-leg base.

SPECIFICATIONS

Our shells are made up of a minimum of 9 plies of European beech veneers for a total thickness of 12 mm (just under ½"). They are precision machined on 5-axis CNC routers. The PU lacquer is 100% water-base.

LIST PRICING

Clean & Comfortable

The body comes in white, gray, green, and blue. The shell is available in the same 4 colors and can be configured with or without a cushion. Cushions come in black, blue, gray and green, mix and match tones to create an elegant form.

Our collaborative design process continues as we work with you, from design through installation. Whatever your vision for viewing environments, we will work with you to bring that vision to life. Contact us today to start the conversation.

Waiting Seat

COMFORT AND VERSATILITY

The Zero 9 is a multipurpose chair designed for office, lecture hall and training rooms. Special attention was given to the development of the compound curvature back to ensure many hours of comfort and support. It has excellent stacking and nesting capabilities. The same frame can be equipped with casters, glides or a casters+glides combination.

SPECIFICATIONS

The flip-up and flexible backrest are available in many finishes and colors to include scratch-proof PP with an optional upholstered panel padded with fire-retardant polyurethane foam or beech ply-wood and engineered wood veneer. Two wire steel springs enable the flexing back movement. The back supports are made of polished die-cast aluminum. The frame is made of ellipsoidal section tubular steel, including a nylon easy-ganging device for conference use. All metal parts are epoxy powder coated grey or white with matching PP components of the structure. The flip-up arms are polypropylene reinforced with glass-fiber. The removable anti-panic writing tablet is fixed on a polished die-cast aluminum support, available for right or left handed user. The tablet is made of heavy-duty HPL (High Pressure Laminate) with an eased-edge and is available in a grey aluminium color.

LIST PRICING

Waiting Seat

Eura stands out with a proud outline that makes it the perfect choice whenever a seat with character is required. The Elite version is enhanced with comfortable padding and elegant seams that add a particular elegance and make it ideal for executive offices or as a guest chair.

The seat is made of 10 mm (approx. 0.4") natural beech plywood, padded and upholstered. The back is made of 10 mm (approx. 0.4") natural beech plywood, varnished with aniline or padded and upholstered, with back supports in nylon reinforced with 20 percent glass fiber with chromed metallized finishing. The plastic back is made of injection-molded polypropylene, with a slip-proof finish. It is available in black or translucent white. The mesh backrest is made of a painted steel rod frame, with a diameter of 12 mm (approx. 0.48"), covered with a mesh of black, white, or gray polyester; the back supports are made of nylon reinforced with 20 percent glass fiber, with chromed metallized finishing. The padding is made of contoured polyurethane foam: the seat thickness is approx. 2.2" for the Elite version and 1.8" for the Slim version. The density is of 2.5 pcf for both versions. The upholstered back has a thickness of approx. 1.2" and a density of 2.5 pcf. The structure is made of 12 ga. tubular steel frame with diameter of 25 mm (approx. 1"), varnished or chrome-plated. A black or nickel-plated galvanizing process protects all the small components.

LIST PRICING

Waiting Seats

This graceful, modern chair opens and closes easily like wings. In the "open" position, they function as an inviting chair for meetings, conferences, classrooms, or wherever comfortable seating is needed; and in the "closed" position, they're easily stored until future use. Steel hooks link the chairs together in perfect alignment. Thanks to their easy handling and versatility, Papillon is the perfect seating solution for a contemporary office.

The structures are made in various sizes of tubular steel. The seat closure is secured with a hook and hinge system in 12 ga. thick steel. The padding is in self-extinguishing polyurethane, cold-foamed without CFC, with an average density of 3.12 pcf. Armrests come with arm support in either polypropylene, upholstery, or varnished solid beech. The writing top is in black polypropylene; the anti-panic movement is in polished die-cast aluminum. The short ganging clip is in 5 mm (approx. 3/16") steel wire; the long ganging clip is in 15 ga. thick black painted steel plate. The dual-wheel self-braking casters are in reinforced nylon for soft floors or with polyurethane tread for hard floors. The shaped fixed glides are in reinforced nylon; the suction cup glides are in rubber with a galvanized steel pivot.

Waiting Seat

Classical harmony, pure elegance, and absolute comfort are the essential elements of the Naxos line of seating. Mix and match the armchair, two- and three-seat sofas, and one- and two-seat poufs in any combination for offices and waiting areas of any size. The clean lines, high-quality finishes, and natural proportions of Naxos bring minimalist luxury to the work environment.

The structure is made of solid wood; the tops are in wood conglomerate. The upholstered portions are in contoured polyurethane foam of differentiated densities and are covered by a soft resin fiber for increased comfort. The legs come in either tubular, steel gray-colored aluminum or chrome-plated finish.

LIST PRICING

Space Efficient

The perfect compliment to our fixed tables, the Symmetra Flip-Top adds the beautiful design of our Symmetra series to an extremely functional multi-purpose table.

Designed for maximizing the usability of any space with its nesting capabilities. Simply unlock the table top from its fixed position and tilt the surface down. With the option of glides or casters the Symmetra flip-Top can easily be transported and nested for storage.

LIST PRICING

AUDITORIUM

AUDITORIUM

Navetta provides a wide variety of auditorium and theater seating designed to create the most comfortable viewing experience. Whether you are seeking seating for a stadium, theater, or auditorium, Navetta allows you to fully customize the products with our endless supply of options.

Theater/Auditorium Seat

Characterized by its great versatility and innovative design, Eidos includes a wide range of models. The Plus ensures maximum comfort in theaters and auditoriums. A wider seat with richer seams than the basic model, the row and place number elegantly embroidered on the side and under the seat, a side that extends to the ground—these are the elements that convey innovative design and functionality.

The seat is made of 12 mm (approx. 0.47") beech plywood and the backrest and the optional headrest are made of 10 mm (approx. 0.4") beech plywood. In the wood version, the back is made of 13 mm (approx. 0.51") beech plywood, varnished in natural color, with a padded and upholstered panel. The padding of the seat is filled with self-extinguishing contoured polyurethane foam, with the average thickness of 2.75" and density of 2.5 psf. The padding of the backrest is filled with contoured polyurethane foam, with the average thickness of 2.75". The lower part of the rear backrest has a standard gray polypropylene cover, which also comes in black. The side is made of 11 ga. thick structural steel, with padded covering polypropylene panels. An optional end row side closed to the floor is made of wooden conglomerate. The armrests can be in black polypropylene, in fabric-covered polypropylene, or in natural varnished beech wood. All visible metal parts are scratchproof painted with epoxy powder in standard gray or in black. Frame finish: chrome or black or embossed gray epoxy-polyester coated.

LIST PRICING

Theater/Auditorium Seat

The strength of the Premiere line is its combination of technologically advanced solutions and new production methods. Aesthetics and function are given equal importance. The simple exterior conceals a wealth of features, exceptional comfort, and a precise design—a compact shape that blends the highest-quality materials and finishes

The steel-framed seat and back are made of self-extinguishing polyurethane. The exterior of the seat and back are finished with curved beech plywood panels; the wood exteriors can be finished in lacquer or in engineered wood veneer on request. The chair gently closes silently and precisely in perfect alignment with the back thanks to a mechanism that cushions the movement. The sides are steel structures that house the mechanisms for allowing the synchronized opening and gentle closing of the seat. The 11 ga. steel support beam has a square cross-section and measures 3"x3". The chair's feet and the front handle are made of polished die-cast aluminum and have no visible screws.

USING MODULAR ROUNDED SHAPES

Conference End Groupings
Combine with other modular shapes to make ovals, peninsulas outside corners or to create curved ends on straight rows.

Half Round Groupings
Combine with other modular shapes to make circles, ovals or peninsulas.

Conference Pod Groupings
Expand a desk or workspace with a small conference area or create a group gathering area at the end of a row.

③ ADD OPTION CODES and PRICES

Add an Option Code for each category to base Model Number.
Add the price for each selected Option to base price.

Trapezoids can be used in pairs to create six-person groupings.

Kidneys are typically used in primary grades to center students around instructor.

WORKS WELL WITH OTHERS:

Customize and expand your Latchable Desk with these matching storage and workspace units.

Latchable Storage Return
A mobile and comprehensive storage system that latches to your desk. In two sizes. See page 22

Complementary Shapes
Add ShuttleZone shapes to expand your desk or create L-shaped workspaces. See pages 2 - 12

Mobile Pedestals
Tuck a Mobile Pedestal beneath any desk or a complimentary shape. See page 23

Mobile Storage
Equip yourself with flexible storage for supplies, equipment and personal belongings. See pages 34 - 44

PLEASE NOTE:
The Latchable Return works best with desks on Pedestal style legs.

Available Accessories:	see page
• Power / Data MiniPort	102
• Keyboard Tray	102
• CPU Holders	102
• Center Drawer	102
• Mobile Pedestal	102

ShuttleMate

Changeable Computer Workstations

With all the strength and flexibility of our patented ShuttleSystem Changeable Computer Workstations but in a more streamlined design, ShuttleMate computer tables are perfect for less wire-intensive applications. Available in two standard depths and with sleek wire-management options, you can suit ShuttleMate to your school's specific technology needs.

- Optional top-loading wire trays to keep cords handy
- ShuttleLatch table connector for instant flexibility
- Ergonomic Pedestal Legs of rugged 14-gauge steel
- Strong metal-to-metal connections at stress points
- Friendly curved shapes enable collaborative learning

NOTES

ShuttleMate Worksurface Height: 22" to 32" adjustable leg is standard, available with either glides or casters.

ADA: For required 30" wide clearance, choose any of our standard 42" or wider stations.
(Or to save classroom space, we offer a special-order 39" width at the same price as the 42".)

Shipping of ShuttleMate Changeable Computer Tables

- > All orders of 10 stations and over will be bulk packed on pallets.
- > Orders under 10 stations may be individually cartoned (large components may also be palletized).
- > Freight classification is 70 for disassembled flat product.

Starter/Adder

Tandem

Perfect for permanent and semi-permanent computer labs, Tandem's "semi-fixed" starter/adder design has all the structural integrity of built-in systems, yet it offers future reconfigurability. Navetta fixed tables and seating provide the perfect solution for lecture rooms, auditoriums, and training rooms. Fixed seating solutions available in virtually any size and configuration.

- Fully-integrated concealed wire-management channel
- Simple to install
- Economical
- Rugged designs with PVC dging, rugged steel tubing

ADA: For required 30" wide clearance, choose any of our standard 42" or wider stations.

(Or to save classroom space, we offer a special-order 39" width at the same price as the 42".)

Shipping of Tandem Starter / Adder Computer Workstations

> All orders of 10 stations and over will be bulk packed on pallets.

> Orders under 10 stations may be individually cartoned (large components may also be palletized).

> Weights are approximate and include shipping cartons.

> Freight classification is 70 for disassembled flat product.

Electrical			
Electrical pricing is determined by workstation type, quantity and electrical requirements. Please call to receive a custom quotation for your project.			
Installation			
Installation pricing is determined per project requirements. Please call to receive a custom quotation for your project.			

Pricing	All prices are F.O.B. factory at Archadale, North Carolina. All prices and specifications are subject to change without notice. All prices are for standard finishes only. Please call for pricing on custom finishes.
Packaging	All orders of 10 stations and over will be bulk packed on pallets. Orders under 10 stations may be individually cartoned (large components may also be palletized).
Shipping	All shipments are F.O.B. origin at Archadale, North Carolina.
Freight Claims	By FTC law, title to merchandise passes to addressee upon acceptance by carrier. Addressee is solely responsible for inspection or shipment before acceptance of delivery from carrier, and for filing any claims for shortage or damage with carrier. Notification of concealed damage must be made to carrier within 15 days after delivery; carrier responsibility ceases after 15 days.
Product Design	ShuttleSystem maintains the right to introduce design changes any time without notice. All dimensions are nominal. Worksurface dimensions based on rectangular material blank size. Colors will vary from printed literature, we recommend viewing physical samples of colors before finalizing order.
Warranty	All K-12 products are guaranteed against defective material and workmanship for a period of 20 years from date of actual receipt by the user, except optional gas strut mechanisms guaranteed for 5 years. Fixed tables (Symmetra, Symmetra Plus, Omnia, and Monolito) are guaranteed as follows: Structural components Lifetime, other structural components10 years, plastic, paint, wood, laminate and o surface finishes 3 years, power and electrical components, seating upholstery 1 year. Warranty does not apply to any product which has been altered or modified from the original design or specification or to any product damage resulting from accidents, negligence or shipping.
